Prerequisites:
User needs to have an IBM Cloud account
User needs to have a basic knowledge of the Watson Assistant

Launch the Demo:
https://htmlpreview.github.io/?https://github.com/jaypandyaibm/WAWFuction.github.io/blob/main/AcmeCorp.html

Once it is up, reach to the bottom right corner and click on below icon:

This will Launch a watson Chatbot:

Now you can proceed to Ask question on the below topic:

For project management:
 - What are the total number of projects in my project management system?
 - How many projects are in trouble?

For warehouse inventory management:
 - Are there any inventory related alerts?

For order management:
 - What is the delivery status?
 - How soon the order will get delivered?

For Google Search:
 - Type with "search" and type your query
